Applicant : Karl Haakonsen et al.   Attorney's Docket No.: 11328-006001
Serial No. : 09/603,422
Filed   : June 26, 2000
Page   : 2 of 8

Amendments to the Specification:

Please replace the paragraph beginning at page 21, line 7 as with the following amended paragraph:

FIG. 24 shows a listing of statements defining a morph. The "weight" morph is based on the weight variable and extends from a minimum weight of 164 to a maximum weight of 184. Thus, if a patient ~~weights~~ weighs "174", the corresponding offset would index halfway through a video file and present the corresponding image.
